About package:

At the Austin, modern family living is all about space to come together as a family and space for quiet time apart. The open living space combines with a rumpus room and alfresco to create a central living and entertaining area that can be used all year round. The master suite is isolated at the rear of the home for privacy while the bedroom wing at the front of the home has a generous study nook for dedicated work-space. The Austin has all the elements today's family needs and a little more.
